Education

Politecnico di Milano Sep. 2024 – Jul. 2027
BSc in Computer Engineering *Milan, Italy*
- GPA: 27.74/30

Data Science & AI for Business – Summer School Jul. 2025
POLIMI Graduate School of Management *Milan, Italy*

Liceo G. Ricci Curbastro Sep. 2019 – Jul. 2024
Scientific High School Diploma *Lugo, Italy*

Kaplan International Languages | *Intensive English courses, Cambridge & Dublin* Jul. 2022, Jul. 2023

Experience

SMC 14 Sep. 2026 – Present
IT Process & Software Consultant *Italy*
- Developing the new company ERP (quotes, orders, delivery notes, invoices) in C# and .NET; quotes tested on site in Oct. 2026, orders nearing completion.
- Gathering requirements from user meetings and the legacy system, each traced to its source.
- Designing an AI-agent development pipeline (Claude Code) with analysis, design, coding and review stages.

NECSTLab – Politecnico di Milano Sep. 2026 – Present
Undergraduate Student Researcher *Milan, Italy*
- Researching federated learning for tree-based models (XGBoost), supervised by PhD researchers.
- Measuring the accuracy gap of bagging/cyclic vs histogram-based methods and whether a middle ground exists.

LEONARDO Project Mar. 2026 – Present
Student Member *Milan, Italy*
- Participating in NECSTLab's interdisciplinary LEONARDO program, combining engineering education, research activities, and structured development of technical and transversal skills.

MARCS Research Project Jan. 2026 – Present
Researcher | PoliMi Data Scientists *Milan, Italy*
- Building the AIS data pipeline (∼50 GB): cleaning (20.7M → 1.4M rows/day), resampling, route segmentation.
- Optimizing GeoTrackNet training (TensorFlow): time per training pass reduced from days to minutes.

Leadership & Activities

LeadTheFuture Mentorship Sep. 2026 – Present
Selected Mentee *Italy*
- Selected (13% acceptance rate) for a non-profit STEM mentorship program offering one-on-one guidance from mentors at Google, CERN and other leading tech and research institutions.

PoliMi Data Scientists Oct. 2025 – Present
Student Data Science & AI Association *Politecnico di Milano*
Head of Projects Aug. 2026 – Present
- Coordinating the Projects section's student teams; selecting new members through structured interviews.

Team Project Manager Apr. 2026 – Present
- Leading Clinical Risk Detector for Physiotherapy, a decision-support tool for physiotherapists: direction, weekly team meetings, outreach to external collaborators.

NECSTLab x Arduino Hackathon 14–15 May 2026
SafeNet, hackathon prototype *Politecnico di Milano*
- Built in two days, in a team of three, an Arduino UNO Q prototype for elderly people living alone.

Portfolio Showcase

Independent Technical Exploration | *Interactive Portfolio* | *GitHub* 2025 – Present
- Selected explorations: *Equity* (Monte Carlo, C/Python), *Axioma* (Mixed-Integer Linear Programming), *Physics Simulation* (numerical simulation), *Vinted Tracker* (automation).

Skills & Interests

Programming:	Python, C, C#, Java, SQL, MATLAB, JavaScript, HTML/CSS, Assembly, LaTeX
Technical interests:	Artificial Intelligence, Numerical Computing, Optimization, Simulation, Algorithms
Tools:	TensorFlow, XGBoost, .NET, Claude Code, Visual Studio Code, Git, GitHub, Docker, OrbStack, Streamlit, LabVIEW, Obsidian, Notion, Slack, Discord
Languages:	Italian (Native), English (B2 – Cambridge English B2 First, 174/190)
Interests:	Music Production, Guitar, Piano, Chess, Bouldering
